Andrew, I fixed 3 references in the animal section, due to HERO corrections and updates (2 Johannsen, and 1 Ward near the end). You can see the comments and track changes. Sue

Here is a version that I saved just before un-formatting it to send to Barbara last night. See if this one works. It looks OK to me when I open it. Have you had problems with other un-formatted sections? Sue

Hi Barbara, I added the rest of the animal refs (except for one missing one). I had some problems with the unformatted version you sent me. All of the animal citations could not be converted to formatted style. I ended up replacing the animal section completely. Let me know if this new version (which I again converted to unformatted) has any problems when you open it.

I will look at Mary's new info tomorrow and see if I can sort out the lit search text. Are you in the office tomorrow? Sue
